Connecting to a Trader

After you have made your deposit (\$250 minimum to qualify for 24x) in your new trading account **do not do anything with your deposit, do not connect to anything!** Temporarily change your password (to something you don't mind us knowing), [click on this to let us know \(fill in the details\)](#) and **we will connect you to SONIC with 24x your deposit!**

Do not connect to SONIC **yourself** as this will set your connection to 12x!

Once the 24x connection has been made you can safely change your password again.

You can also top up your 24x connection at any time and it will automatically 24x your new deposit!

After you have been connected we will guide you through managing your investment.
